

Fellow CLETS User,

On behalf of the CCUG board, I would like to invite you to the annual California CLETS Users Group Training & Technology Seminar at the Hyatt Regency Downtown, Sacramento September 10-13, 2019. We will be offering training classes by representatives from DMV, DOJ, and many other entities from around the state. It's our goal to ensure the training offered is relevant for all our attendees, regardless of your position within your agency.

We are looking forward to our breakout sessions this year covering several CLETS topics. If you have a specific topic you'd like to see presented, please email me or another board member with your suggestion. Additionally, our seminar is a great venue to learn about new products and services from various vendors.

Attendance to our seminar is the perfect chance to receive 24 hours of POST CPT credits.

You have the opportunity to have your seminar fees waived if you bring us a new vendor exhibitor that has not participated in the last two years. If you know a vendor who sells a product or service that would be of interest to CLETS users, extend them an invitation to exhibit at our 2019 seminar. For more information, please visit: http://www.ccug.org/seminar/free_seminar.html.

The seminar has proven to be a great forum for training, information exchange, and professional networking. Our membership is comprised of knowledgeable and experienced dispatchers, records clerks, trainers, investigators, and technical professionals representing law enforcement and criminal justice agencies throughout the state. We hope you are able to join us this year to learn and network with CLETS users.

Be sure to visit www.ccug.org for more detailed seminar information as well as upcoming chapter meeting announcements. We also have links to other law enforcement sites and vendors that support CCUG.

I'm looking forward to seeing you in September!

Sincerely,

Sheila Herron, Executive Director
California CLETS Users Group
