

Versaterm Inc. has been delivering integrated public safety systems to North American police departments since 1977. We offer a fully integrated suite of Law Enforcement software solutions that includes: Computer Aided Dispatch (Police, Fire, EMS), Law Enforcement Records Management, and a Mobile Computing Platform.

The Versadex RMS is a suite of applications that, bundled together, offers unparalleled functionality and integration. The Versadex RMS is the core system, or repository, storing all of the information needed for operational police department. The RMS, supported by a number of interfaces and integrated field reporting (Mobile Report Entry), provides for a single-entry environment enabling maximum efficiency for case management. Through mobile data, a “window” to the *information* is now available to the officer in the car, with only a few short keystrokes, and re-use (prefills, copy & paste) of known information is enabled maximizing efficiency. With integrated Mobile Data and Mobile Report Entry, this new mobile workstation environment is the “get it once, get it right and get it at the source” paradigm.

Key Features

- Supports a complete “Paper-Less” Environment
- Direct Entry, no “intermediates” between users and information
- Single-Entry, no duplicate entry of the same information
- Graphical User Interface
- Summary and/or NBIRS Compliant Reporting
- Workflow Oriented
- Powerful Information Retrieval and Analysis Tools
- Open System – non-proprietary, open interfaces, information exchange and reporting
- Image Enable, to easily integrate images to structure information
- Mature, Predictable, Scaleable
- Open-ended Application Architecture, adaptable and “evolvable”

At Versaterm, we fully understand the importance of commitment, and it is the customer’s commitment and our ability to deliver what we promise, that makes the difference.

As our references will surely confirm, Versaterm has extensive experience in delivering public safety systems. Versaterm looks for partnerships – not customer-vendor relationships– and given that no agency has left Versaterm since 1987, we have a track record that is certainly enviable in this market. Let us add your agency to our growing list of partners. A partial list:
