

CCUG Seminar Safety (COVID) Plan

August 28, 2021

On behalf of the Board of Directors, I want to ensure you that we are taking all safety precautions possible as outlined by both the CDC and the County of Ventura. We will abide by the Health orders for Public Setting and Business as set forth by the County of Ventura. The most recent order published August 20th, 2021 (link below for your review).

We will be providing face masks, hand sanitizer and antibacterial wipes. We will wipe down all classrooms prior to their use, for each session. We have provided adequate space to help ensure physical distancing whenever possible. The property has plenty of outdoor space, ventilation and windows/ doors to allow for fresh air flow. All meals will be served by the host hotel and all Health Department guidelines are in place.

We are fortunate that the property will be occupied by only CCUG Seminar attendees during our visit. As all participants are employed by government agencies, we can estimate that the majority are vaccinated or are following their employing agencies recommendations for testing.
