Dear Fellow CLETS User,

On behalf of the CCUG board, I would like to invite you to the 2025 California CLETS Users Group Training & Technology Seminar in Palm Springs, California September 9-12, 2025. We will be offering training classes by representatives from DMV, DOJ, and many other entities from around the state. It's our goal to ensure the training offered is relevant for all our attendees, regardless of your position within your agency.

We look forward to the presentation of our breakout sessions this year, covering several CLETS topics. If you have a specific subject you'd like to see presented, please email me or another board member with your suggestion. Additionally, our seminar is a great venue to learn about new products and services from various vendors.

We encourage you to attend our seminar as a way to expand your awareness of changes and build your network of resources. This is the perfect chance to receive 24 hours of POST CPT credits.

If you bring us a new corporate vendor exhibitor that has not participated in the last two years, your seminar fee might be waived. Should you know a vender who sells a product or service that would be of interest to CLETS users, extend them an invitation to exhibit at our 2025 seminar. For more information, please visit: www.ccug.org/seminar/free-seminar

The seminar has a proven record of providing a great forum for training, information exchange, and professional networking. Our membership is comprised of knowledgeable and experienced dispatchers, records clerks, trainers, investigators, and technical professionals representing law enforcement and criminal justice agencies throughout the state. We hope you are able to join us this year to learn and network with CLETS users.

Be sure to visit www.ccug.org for more detailed seminar information as well as upcoming chapter meeting announcements. We also have links to other law enforcement sites and vendors that support CCUG.

I'm looking forward to seeing you in September!

Sincerely,

Lehua Pahia, Executive Director
California CLETS Users Group
