Greetings,

I would like to invite you to take part in the 2024 California CLETS Users Group (CCUG) Training & Technology Seminar. Our Seminar will be held September 10-13 in Rohnert Park, California (Vendor specific dates are September 10 and 11). In addition to supporting CCUG, your participation will give you the opportunity to meet the people who use the products your company offers.

Since CCUG originated, our mission has been to represent the hundreds of law enforcement and criminal justice agencies in California. Our membership includes management, supervisory, and technical staff, representing agencies that use message-switching or computer-aided dispatch systems that access CLETS. We represent all the different types of law enforcement agencies that employ the products and technologies you provide on an ongoing basis to do their jobs, most operating the equipment used in their agencies.

CCUG recognizes and values the importance of the support we receive from companies like yours. For this reason, we have an area set aside at our 2024 seminar for the companies that accept this opportunity so you can show your products and services to our members. We also have times designated for CCUG Seminar attendees to visit participating exhibitors, giving them an opportunity to meet you and other representatives of your company personally. We are confident that you will find your participation in this seminar a valuable and productive experience. We invite you to view the sponsorship/exhibitor opportunities available:

All our vendor exhibitors will receive:

- 8' x 8' exhibit space in our vendor area with a 6' table and two chairs
- Participation in our Vendor Scavenger Hunt
- Seminar registration (\$425 value)
- Your company logo and a one-page ad included in our Seminar app
- Opportunity to include company logo tote bag item
- Roster of all CCUG Seminar attendees with contact information
